PROFILE

Junior Full Stack Developer with hands-on experience building web and mobile applications using React, TypeScript, and Python. Experienced in implementing core features, integrating APIs, and working in team-based academic and internship projects using agile workflows.

TECHNICAL SKILLS

Frontend Development: HTML, CSS, React, TypeScript, TailwindCSS, Bootstrap, GSAP, Next.js
Backend Development: Python, Django REST
Database & Cloud: MongoDB, SQLite, Vercel, Render, Firebase
Tools & Workflow: Git, GitHub, Figma, Microsoft 365, Agile

EXPERIENCE

Software Developer Intern Jun 2025
Alliance Software Inc. | Cebu City Philippines

- Collaborated with a team of 4 to develop **SkillStacker**, a knowledge management platform for skill training and assessment.
- Implemented UI mockups, project documentation, and core backend data flow using C# and ASP.NET Razor Pages.

PROJECTS

Health Platform App - *Thyra (React Native, TypeScript)* 2026

- Designed and implemented UI mockups and full-page layouts, including API integration and data flow for personal information management features.
- Developed component structure and navigation flow with state management to support updates across health tracking screens.

Gamified Learning Platform - *Probability Bomber (React, TypeScript)* 2025

- Co-developed a Bomberman-inspired educational platform that teaches probability concepts through interactive, level-based gameplay.
- Implemented frontend logic, UI mockups, and data flow using React.js and TypeScript.

Dynamic Ecommerce Platform – *TechnoSpace (ASP.NET, React.js)* 2024

- Built an online marketplace platform for CIT-U students and staff to buy, sell, and exchange products within the campus community.
- Designed and implemented the real-time messaging system, enabling seamless communication between buyers and sellers using ASP.NET, React.js, and Microsoft SQL.
